The Signal - Movie Trailers - iTunes

The last signal "weird moving signal" I know EXACTLY what that is, it is an OLD type of telemetry signal used to remotely send the value displayed on a gauge or dial, It works by taking the circular movement of a needle on a dial (like a thermometer or pressure gauge) and connecting the shaft to a potentiometer and using the pot to control a VCO, you get the data by knowing the "center ...

Google

The Wow! signal represented as "6EQUJ5". The original printout with Ehman's handwritten exclamation is preserved by Ohio History Connection . The Wow! signal was a strong narrowband radio signal received on August 15, 1977, by Ohio State University 's Big Ear radio telescope in the United States, then used to support the search for extraterrestrial intelligence . The signal appeared to come ...
